| <p>FAN WALL</p> <p>Allow users to connect over their shared addresses for your business. Users are able to comment, see availability, share photos, and discuss with other users what they love about your business or service.</p> | <p>MORTGAGE CALCULATOR</p> <p>Allow users to calculate a monthly payment using variables such as loan amount, loan term, and interest rate.</p> | <p>AROUND US</p> <p>Draw attention to hot spots in the area within your app. Users can easily access contact information, addresses and GPS directions for each location.</p> | <p>DIRECTION VIEW</p> <p>This offers one-touch directions to multiple locations. It's quick and easy to set up and there is no limit to the number of addresses you can enter.</p> |
| <p>IMAGE GALLERY</p> <p>A new way to display images inside your app. Create a custom gallery through the dashboard or post the existing galleries from Flickr, Picasa or Instagram.</p> | <p>MULTIPLE LANGUAGE SUPPORT</p> <p>You have the freedom to use a single app in multiple countries or in any location where your users speak different languages. Choose up to five languages when your content goes into the CMS in these languages and you're done!</p> | <p>CALL US</p> <p>Allow users to instantly call you with the tip of a finger!</p> | <p>EMAIL PHOTO</p> <p>Allow users to email photos/videos directly from the app that businesses can use on their own social media platforms.</p> |
| <p>INFO</p> <p>Insert text about anything that you can insert into a regular web page - it can be thought of as a static HTML page.</p> | <p>NEWS</p> <p>Keep your app users up-to-date on news that relate to your business or industry. The content that appears in your feed depends on the keywords you provide.</p> | <p>CONTACT</p> <p>Display important general information such as business location, website URL, contact info (phone & email), and hours of operation.</p> | <p>EMAIL SIGNATURE</p> <p>Don't rely on printers, scanners or postal services any longer. Paper forms are a thing of the past with our new signature add-on. Let users quickly and securely sign documents within your app, saving time and money for your business and your customers.</p> |
| <p>MAILING LIST</p> <p>Collect contact information from app users for their website and special offers can be communicated cheap and effectively.</p> | <p>PDF</p> <p>Display PDFs through your app. This is commonly used for divorce forms, menus, and event reports.</p> | <p>CUSTOM FORM</p> <p>Generate customer feedback, take appointment/reservation requests, and gather info from users.</p> | |
| <p>MENU</p> <p>Build out your entire menu in the app, with specific prices for each item.</p> | | | |
